The P43 will burn any grade of pellet at maximum efficiency and still keep your home at your desired temperature. Not only can the P43 burn pellets with optimal efficiency and cleanliness, it does it automatically. The P43 automatically lights its own fire and burns at the correct output to maintain the desired room temperature. When no heat is required, the P43 will shut-down and reignite when the demand for heat returns. Just fill the hopper with pellets and set the desired temperature. The P43 will do the rest except for ash removal, which will be needed after approximately one ton of pellets has been consumed.

Harman P43 Features
Room Temperature Sensor
Patented Feeder
Swing Open Ash Door
Accordion Heat Exchanger
Air-Cooled Combustion Blower
Automatic Temperature Control
Over 100 Square Inches Of Glass
Harman Patented Burner Pot With Automatic Ignition
ESP Probe
Large 50lb Hopper (110lbs with hopper extension)
