- The "Dutch Oven" concept of completely surrounding the firebox with cooling water prevents damage from overheating and eliminates the need for firebrick.
- Domestic hot water coil included.
- Designed for use as an add-on to the primary heating source.
- No messy fire tubes to clean.
- Compact size uses less valuable floor space.
- Boiler unit made of steel plate for long life.
- With proper installation, the unit may be used as a gravity unit during a power failure.
