

# PHASE 1 QUALIFIED

## U.S. Environmental Protection Agency Hydronic Heater Program

Phase 1 Qualified models are cleaner and pollute less than those models that have not met this emissions level. Exposure to smoke has been associated with respiratory illness and other health problems. Models that have lower smoke emissions may reduce your risk.

### HYDRONIC HEATERS SMOKE EMISSIONS RANGE

Heaters with lower emissions produce less smoke when installed and operated properly.

<b>MANUFACTURER:</b>	Wood Doctor
